TRAVEL FEES

TRAVEL MILES	COST
0 - 25	\$90
26 - 50	\$105
51 - 75	\$135
76 - 100	\$160
101 - 125	\$385

ADDITIONAL REPAIR WORK

Recommendation for repairs found during the 14 point inspection will not be part of the Preventative Maintenance process or invoicing. Any repair recommendations will be an additional invoice and will be scheduled for another time.

Frazer understands the priority of a downed unit and will manage this proactively. We will always work with the customer to get them up and running.

There are times Frazer may be contacted for a non-scheduled repair job that we may not be able to do in the field due to resources needed, safety concerns, or the amount of time it may take to complete. These can be things such as airbag replacements, MEPS (under the hood generator) maintenance, **extensive generator repairs*, etc. If the unit is drivable, you have the option for us to come and pick up the unit for the appropriate travel fee.

MOBILE SERVICE PROGRAM

STANDARD VISIT

INSPECTION

14 POINT

MAINTENANCE

150 HOUR ONAN PM

- New Oil Filter
- New Air Filter
- 2 Quarts Oil

\$176
PER UNIT
PLUS TRAVEL FEES

EVERY 3RD VISIT

INSPECTION

14 POINT

* Same as a Standard Visit.

MEPS

- MEPS function inspection

MAINTENANCE

450 HOUR ONAN PM

- New Oil Filter
- New Air Filter
- 2 Quarts Oil
- New Generator inline fuel filter
- New Fuel pump inline fuel filter
- New Spark plugs
- Valve lash adjustment

\$350
PER UNIT
PLUS TRAVEL FEES

**Extensive generator repair* - We will drive out and swap your generator to a loaner generator for the travel fee plus \$100. This will minimize downtime for you and allow you to get back in service while we bring your generator back to Frazer for repair.

If Frazer arrives at your location to repair an item and it is determined that we cannot repair in the field, the travel fee will be waived or it can be utilized for pick up and delivery back to Frazer if the unit is drivable.

AS NEEDED

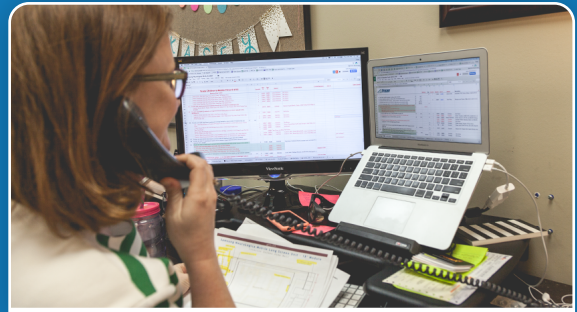

REPAIR WORK

Pricing is the appropriate travel fee, plus hourly at your location.
